

New Dimensions High School

For the summer of 2020, NDHS wants to empower you to read books that you select! You are given the freedom to explore authors and genres and books that you choose because we want you to enjoy reading something that genuinely interests you. Summer reading is very important. Research indicates that students who read over the summer enhance their reading skills appreciably, while the opposite is true of those who don't read. To help ensure your success this upcoming school year, we are encouraging you to read, read, read!

You can access thousands of free, contemporary books, eBooks and audiobooks safely and conveniently from your phone, tablet, or home computer by taking advantage of your local library and their online resources available to all students and families. Osceola and Polk County Libraries offer eBook platforms that are like having a library or bookstore in the palm of your hand! You have unlimited access to as many books as you want and they are completely free. There is no need to worry about late fees or finding a ride to the library or bookstore. Click on the links below to create an online account at your local library. You can then download the app (Libby, Overdrive...) and begin reading.
