Enrollment and Lottery Process 2022-23

Number of available seats: Approximately 105

Deadline for Open Enrollment: January 15, 2022 and May 15, 2022

New Dimensions High School is committed to enrolling a diverse student population and shall abide by the provisions in the Florida Educational Equity Act, Section 1000.05(2)(a), and Florida Statutes that forbid discrimination on the basis of race, national origin, gender, marital status, ethnicity, or disability.

Applications will be accepted during an open enrollment period and continuously to maintain capacity in each grade level. If the number of applications exceeds the capacity of a program, class or grade level, a public lottery will be held to determine which applicants are admitted. The number of seats available will be determined by the number of students who recommit minus the capacity. Parents will be notified by email of their child's acceptance, denial or waitlist status no later than twenty-one (21) days past the open enrollment deadline. If an accepted applicant decides not to attend the school, or fails to notify acceptance, the slot will be given to the first person on the waiting list.

Student's acceptance during open enrollment is based on students that meet our enrollment requirements mentioned on our application.

Lottery Process:

Enrollment office will select the applicants eligible to participate in the lottery based on NDHS **Enrollment Requirements**. At this time, applications will be selected by grade levels based on available seats. The Enrollment office will run the lottery process. Emails will be generated to offer students an acceptance at NDHS. The remaining students will move to a waitlist based on their lottery number. Applications received after the lottery will be placed on the waitlist in the order in which they are received (according to date, grade level and enrollment requirements).
